# COACHING INSTITUTE MANAGEMENT SOFTWARE

KEY FEATURES

Software helps manage Student, Teacher, Courses, Batches, Fees, Attendance, and Marks. Software provides easy reports like outstanding fees, Marks, Attendance etc. This is a must have software for all coaching institutes. For quite some time we have been asked by several institutes to develop software that is focused on coaching institute requirements. CIMS is developed after collecting requirements from several institutes in different fields. The product is very easy to use and it is developed with the consideration that the operators who are not familiar with using computers should also be able to use it easily.
